Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The amendment filed on December 16, 2004 has been received.

2. Claim 1 is objected to because of the following informalities:

Claim1, line 15 "claim ring" should be --clamp ring--.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 2, and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Harsy-Vadas (US 3,904,181).

Re-claims 1 and 2 Harsy-Vadas disclosed, as shown in fig. 2, a rolling-lobe air spring comprising: a cover 16; a roll-off piston 33; a rolling-lobe flexible member 22 having a first end portion connected to said cover and a second end portion connected to said piston; a support bell (outer diameter portion of cover 16 covering the flexible member) rigidly connected to said cover; said support bell having a peripherally extending surface for laterally supporting said rolling-lobe flexible member at said first end portion; a clamp ring (right below "16") for connecting said first end portion to said support bell; and said clamp ring being disposed on said support bell so that only said

Art Unit: 3683

clamp ring and said support bell conjointly act to cause said first end portion of said rolling-lobe flexible member to always lie flat against said surface and be laterally supported thereby for each deflection of said air spring during operation; wherein said cover and said support bell are configured as a single integral structure.

Re-claim 8 Harsy-Vadas disclosed, as shown in fig. 2, wherein said rolling-lobe flexible member having a maximum diameter and said support bell being disposed outside of said rolling-lobe flexible member and extending from said first end portion over the upper region of said rolling-lobe flexible member up to approximately said maximum diameter.

5. Claims 7 and 9-11 are allowed.

6. Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 3683

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mariano Sy whose telephone number is 703-308-3427. The examiner can normally be reached on Mon.-Fri. from 9:00 A.M. to 3:00 P.M.
